Magee Cup
For outstanding achievement in Science

Claire McNally

This new cup has been presented by Mrs Janet Magee in memory of her husband, Dr Stephen Magee. Stephen was a past student at Dominican College- he valued his education here greatly and was an outstanding Science student.

About our guest – Mr Barry Murphy

Mr Murphy came to Dominican College in 1968 as a young Physics teacher. The school had been a girls' school until then but boys were admitted in 1968 and so the school appointed its first male teacher. The school had less than 300 pupils and many fewer buildings than it does now. As well as teaching inside the classroom Mr Murphy helped with football and other extra-curricular activities. He became the first lay vice-principal of the College in 1977. In 1989 the Trustees decided that Dominican College should appoint its first Principal who was not a Dominican Sister and Mr Murphy was appointed to that role which he held with distinction until his retirement in 2001.
